

JAZZ GORGON

Assistant Building
Surveyor

Please let me introduce Jazz Gorgon who started working with us at One Building Solution Ltd as a Assistant Building Surveyor on the 6th April 2021.

We have hired Jazz through and with the support of the Government Kick start scheme, giving One Building Solution the opportunity to discover up and coming talent, and Jazz a fantastic introduction into the world of the building consultancy, together shaping the environment around us and our future.

Jazz will be working on delivering a cross range of core building surveying competencies i.e. Building Pathology, Housing Repair and Maintenance and Design and Specification along with assisting us on increasing the profile and capability of our business. As well as being enthusiastic and excited about joining us, Jazz brings with him, some brilliant practical knowledge from his previous experience of working on building sites.

Jazz is adventurous and outgoing and in his spare time he enjoys looking after his British and French bulldogs, meeting new people, keeping fit and playing football. Lets hope he continues to score goals for One Building Solution Ltd

Learie Gonsalves BSc(Hons) FRICS
Director at One Building Solution Ltd
