

# NAJATH RAFFEEK

Graduate Structural  
Engineer

**Please let me introduce Najath RaffEEK** who will be starting to work with us at One Building Solution Ltd as a Graduate Structural Engineer on the 12th May 2021. We have hired Najath through and with the support of the Government Kick start scheme, giving One Building Solution the opportunity to discover up and coming talent and giving Najath a fantastic introduction into the world of the building consultancy, together shaping the environment around us and our future.

Najath will be working on delivering Structural Design and Calculations, Computer Aided Design, and a cross range of core building surveying competencies i.e. Building Pathology, Housing Repair and Maintenance and Design and Specification along with assisting us on increasing the profile and capability of our business. Najath brings with him fantastic academic qualifications as he successfully gained a 2:1 in BEng in Civil Engineering (with Hons) in 2018 at the University of Warwick and then went on gain a Master's degree in Civil Engineering and Construction Management in 2021.

Najath is fluent in four languages (English, Italian, Tamil and Sinhalese) and is self-taught and fully proficient in computer aided design, which he also has an interest in as a hobby. Other pastimes include free hand sketching and football. I think we have scored another goal with another fantastic appointment.

**Learie Gonsalves** BSc(Hons) FRICS  
Director at One Building Solution Ltd

part of the  
**KICKSTART**  
**SCHEME**

**OneBuildingSolution** Ltd
